# Resistant Design for Outdoor Connection

The Terrace Outdoor Collection of tables and benches extends care beyond the facility, providing the staff and any patient who needs fresh air a comfortable space to relax outside. Keeping in mind Behavioral Health this product is designed for ligature resistance and it is bolt-to-floor linked. This line's materials are resistant to corrosion, UV damage, and fade, entirely preparing the furniture to be subject to the elements without losing their beauty. Functionality, comfort, and safety all in one.

# Terrace

## Outdoor Connection

### Features

- 100% recycled/recyclable HDPE
- High UV resistance
- Modular steel construction
- Superior finish for durability
- Resistant to corrosion
- Field replaceable parts

### Options

- Bolt-down to reduce accidents and secure against strong winds
- Add-on benches and tables for a complete courtyard
