Waiting Seating

Vista II Seating: Melding Style, Comfort, and Hygiene in Healthcare

Vista II Seating is a contemporary collection crafted with an appealing oval steel leg and your choice of wood or polyurethane arms. In response to the evolving preferences in healthcare design, Vista II embraces more sanitary and environmentally responsible materials, steering away from traditional wood-framed seating. The Vista II bench seating collection features an attractive oval steel leg topped with wood or polyurethane arm caps. Striking a balance between comfort and hygiene ensures healthcare spaces maintain an inviting appearance while meeting modern standards. Complementing the seating collection, the Vista II Occasional Table offers three sizes to cater to diverse spaces, with laminate or solid surface top options.
